Notes	
This list is only a statement of fact regarding contents of Yayin Stam / Stam Yeinam in these whiskies. I do not have any kashrut authority to state whether these products are kosher.	Yayin Stam / Stam Yeinam is any grape based drink including wine, Sherry, brandy and port.
The above list (except those with **) contains only those whiskies which could be confirmed that they contain no Yayin Stam.	The information is correct only for official distillery bottling production (not Independent bottlings).
The information is correct to the best of my ability and I take no responsibility for any possible damage caused by using this list.	The information is correct to the best of my ability only for bottlings up to the date stated above. Note: Product details might change for future bottlings.
There are many different kashrut opinions regarding Single Malt Whisky. Any whisky not found on this list does NOT imply that it is unsuitable for drinking.	The list contains only those whiskies which are readily available either in Israel, the UK or Duty Free shops .
MWYB (Edition Year) is short for the "Malt Whisky Year Book" plus Edition Year, published by MagDig Media Ltd.	TWB 2014 - "The Whisky Book" 2014 published by DK London
KLBD -Kosher London Beit Din.	Star-K Approved List: Star-k.org SpiritsList

Whiskies with ** might contain up to 10% (not First-Fill) Ex-Sherry casks which would be "batel" according to almost all opinions. ("Sherry Casks" 2nd Ed, Page 49-51 by Rabbi Akiva Niehaus)	Whiskies with *** Not recommended according to the CRC as it is matured in casks from a Jewish owned distillery that did not sell its chametz. However, Star-K says that it is not a problem.
